EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jason Johnston on May 7, 2004.

The application has been amended as follows:

In claim 73, delete the second chemical formula.

The following is an examiner's statement of reasons for allowance: claims are allowed over terminal disclaimer filed July 21, 2002, and over the cited prior art, Yada et al. (US 4762862).

The terminal disclaimer filed on July 2, 2001 disclaiming the terminal portion of any patent granted on this application which would extend the beyond the expiration date of the US Pat. No. 5800658.

Yada et al. teach water-soluble acrylic gel homopolymers meeting the formula and constituents shown in instant claims 73 and 87. See col. 3, line 26 – col. 4, line 10. See also col. 3, lines 49 – 60 for instant claim 66. The reference further teaches polymer gel having the polymer concentration of 50-86 % by weight. See col. 8, lines 44 – 61; Examples. However, the reference fails to teach a composition comprising a composition comprising a support structure and the polymer gel as claimed.
